Hi Tom,

I hope you are doing well and enjoying your official role as CIO. I saw the announcement in the Business Journal. Congratulations!

When you have some available time, I would love to update you on some of the Smart City Initiatives that we are working on and have NC A&T involved in the conversations. One of the initiatives that we may be able to move forward in the near future will be the launch of Smart Kiosks in the downtown and surrounding area. Donna and I have discussed having kiosks on the UNCG campus. I would also like to run the idea by you about putting Smart Kiosks on the NC A&T campus. I have attached an overview from the company we are considering to provide the kiosks. The good news is, there is no cost to the university. ☺

Can you provide me with a few dates and times when you would be available for a conference call to discuss this further?

I look forward to hearing from you!

Thanks,

Jane
